TO: WHOM IT MAY CONCERN

**RE: RECOMMENDATION OF
AMERICAN BUILDING MANAGEMENT, INC.**

This is to introduce to you and recommend, Mr. Mike Pitts of American Building Management, Inc., Punta Gorda. We have known Mr. Pitts since our transfer to the Port Charlotte's Salvation Army for approximately two years.

Before that he was working with the prior Corps Officer in refurbishing our chapel and in rebuilding the Administration building after the 2004 hurricane.

Since my time here in Port Charlotte, I have found Mr. Pitts to be a very dedicated man and a man of his word. He did what he said he would do for us and more.

He did an excellent job on our facilities and pays attention to the smallest details. He has a great availability and sense of cooperation with us, our staff and those at our Headquarters in Tampa, also, with the County Building Administration. He has an understanding of the Army's needs and methods of doing things, in the right order and with our chain of command. We are truly happy with the overall job that American Building Management, Inc. has done for us.

I am, also, greatly impressed by his foreman, Tony. He did a great job of being on top of all the details that needed to finish our facilities. Their timing was excellent. They promised the job would be completed by a certain date, and it was.

In the future should we have another building project, we would not hesitate to hire American Building Management, Inc. again.

Thank you for your time.

Sincerely,

A handwritten signature in black ink, appearing to read "CP" followed by a stylized flourish.

Major Caleb Prieto,
Corps Officer

Recommendation of:

American Building Management
President: Mike Pitts
7258 North Blue Sage
Punta Gorda, FL 33955

American Building Management served as the contractor for The Salvation Army at the above address. The company was hired to build a Chapel on our property. Which include a worship center, three office's a conference room, six classrooms and much more.

During the course of our professional relationship, it was great dealing with them for the life of the project. Groundbreaking was on November 2006 and the completion of the project was in January 2008.

During that time, Mike and his staff met all deadlines and the quality of their work was superb. The times we asked for changes, they were carried out quickly and professionally.

I am proud to recommend American Builders. I always found their work to be most satisfactory.

Sincerely,

Captain Alejandro Castillo
Area Coordinator
